<u>**Agenda Item 3.1.2**</u>

Topic: **Information Security Program**

College Health: **Metric 4, Campus Environment – College facilities and grounds are clean
and updated. The campus is safe, secure and welcoming.**

Presented By: **Dr. David Hellmich and Eric Epps**

Presentation:
   The protection of Confidential and Sensitive Information (CSI) assets and the resources that support them are critical to the operation of Sauk Valley Community College. As information assets are handled, they are placed at risk for potential threats of employee errors, malicious or criminal actions, theft, and fraud. Such events could cause the College to incur a loss of confidentiality, or privacy, financial damage, fines and penalties. SVCC protects CSI in a manner that is compliant with all relevant legislation, industry best practices, and the values of the College.
   An overview of the Board-required <u>Information Security Program</u> will be provided.
