

**Sauk Valley Community College**  
**August 28, 2023**

**Action Item 5.6**

**Topic:**                   **Purchase Approval – Sim2Grow Simulations Solutions Medication Administration System**

**Strategic Direction:** **Workforce Development – Sauk Valley Community College meets the workforce needs of the region through effective and responsive programming and services for all learners.**

**Presented By:**       **Drs. David Hellmich and Jon Mandrell**

**Presentation:**

In the College's health clinical areas, the use of simulators assists students due to the limited clinical experiences available to them. Simulators mimic high-stress situations and force students to utilize critical thinking skills. The College recently was awarded approximately \$387,000 in state funding through the Pipeline for the Advancement of the Healthcare Workforce Program (PATH). As part of the grant's budget and outcomes, the Nursing program is seeking to expand its simulation training. After researching several pieces of technology, the program has identified the Premium Plus eMAR Expansion iPad, including the Barcode Scanner, from Sim2Grow Simulations Solutions Medication Administration System as the best option. Contracts for integrated software and equipment are exempt from publicly solicited bids under the Public Community College Act (110 ILCS 805/3-27.1) and SVCC Board Policy (305.01).

**Recommendation:**

The administration recommends the Board approve the purchase from Sim2Grow Simulation Solutions in the amount of \$27,725 to be paid from the PATH Grant funds.
