June 20, 2022

To nursing faculty members,

I would like to express my interest in the position as instructor of the practical nursing program.

Licensed Practical Nurses are near and dear to my heart, as I began my nursing career as a LPN. It is my belief that LPN's are greatly needed in the nursing profession, both as hands on providers of nursing care, and also as a starting point in one's nursing career.

As a nurse with many years of experience in the profession, I believe that I will bring a wealth of knowledge and skill to the practical nursing students. I am a clear communicator, and able to connect with people at their own level. I have precepted many students in several settings over the years and feel that I have a unique talent in educating and passing on nursing knowledge to others.

I have walked the path that many students are walking, progressing from student to LPN, to RN and on to APRN. I have faced many challenges during my education and career, as many students in the practical nursing program undoubtedly are facing as well.

It is my belief that I would be an asset to the faculty and nursing students of SVCC, and once again would like to express my interest in this opportunity, to assist in educating the next generation of nurses.

Sincerely yours,

Jeanne Nailor
