Action Item 5.11

Topic: Purchase Approval – Realityworks Simulators

Strategic Direction: Workforce Development – Sauk Valley Community College meets the workforce needs of the region through effective and responsive programming and services for all learners.

Presented By: Drs. David Hellmich and Jon Mandrell

Presentation:

In the College's agricultural programs, the use of simulators assists students in maximizing experiences available to them and mimic real-life work within the field. After researching several pieces of technology, faculty have identified Realityworks as the best value and instructional tool for the department's needs. The software and equipment will be utilized in the Animal Science curriculum and co-curricular activities. Due to the generosity of the Whiteside and Lee County Farm Bureaus, donations were received from both organizations to offset costs. As Realityworks is the sole supplier of the items, a bid is not required. The sole supplier letter is attached.

Recommendation:

The administration recommends the Board approve the purchase of the Realityworks Simulation equipment to be paid from a combination of \$20,019 in donations by the Whiteside and Lee County Farm Bureaus and \$20,987.70 in restricted bond proceeds for a total amount of \$41,006.70
