

**Sauk Valley Community College
March 18, 2024**

Agenda Item 3.1.3

Topic: **Artificial Intelligence 101**

College Health Metric: **Academics – The College provides quality, contemporary, and relevant educational opportunities to the community.**

Presented By: **Drs. David Hellmich and Jon Mandrell**

Presentation:

Artificial Intelligence is a dynamic and controversial subject that has profoundly impacted the SVCC's academic programs, technologies, and policies. Over the past year, employees have engaged in meaningful conversations on how to respond and prepare the college for success in relation to this topic. Greg Noack, a Computer Information Systems instructor, has been instrumental in providing students with content and knowledge on the subject as well as serving as a valuable resource in planning and policymaking. An introductory overview of Artificial Intelligence will be provided.
